Abstract

TODO...

In this paper we report the tasks done as part of the project 21 Handling Knowledge Graphs Subsets that participated in the Elixir Biohackathon 2021.

Introduction

Description of activities

This document contains the different activities that were carried on during the Elixir BioHackathon Europe 2021 which was held in Barcelona, although half of the participants were remote.

General overview

GeneWiki project

A use case is the GeneWiki project which is described at (Waagmeester et al., 2020).
